

MYVIT MINERAL

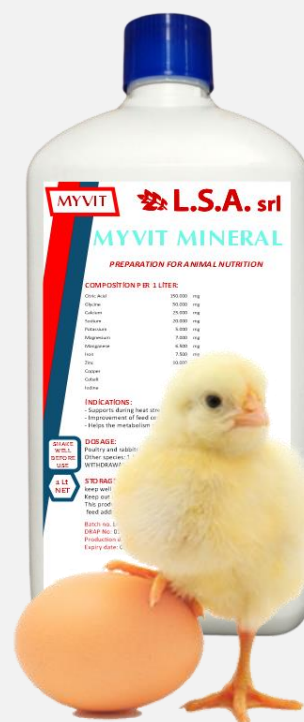

Nutritional Supplements for Application via Drinking Water

ADVANTAGES:

- Balanced combination of electrolytes enriched with citric acid
- Perfect solution for heat stress problems in poultry
- Stimulates water and feed intake
- To be used in case of mineral loss
- Highly concentrated- safe and convenient transport

COMPOSITION (per lt):

Citric Acid	150.000	mg
Glycine	50.000	mg
Calcium	25.000	mg
Sodium	20.000	mg
Potassium	5.000	mg
Magnesium	7.000	mg
Manganese	6.500	mg
Iron	7.500	mg
Zinc	10.000	mg
Copper	600	mg
Cobalt	100	mg
Iodine	200	µg

STANDARD PACKING:

1 litre bottle
5 litres canister

MYVIT MINERAL

Nutritional Supplements for Application via Drinking Water

MYVIT Mineral - to restore mineral balance, especially during heat stress periods, after transport or medical treatments

For optimal flock management in poultry it is indispensable that the animals have a regulated water balance. Dissociated salts (electrolytes) are present in varying concentrations inside and outside the cells, thus regulating the transport of nutrients. The regulation of the water-electrolyte balance is controlled by the kidneys. If this system loses balance due to reduced water uptake (disease, change of housing) or increased loss of water (heat, diarrhoea), the lacking electrolytes should be supplemented via the drinking water, while water uptake should be stimulated at the same time.

Counteracts heat stress effectively

High temperatures cause a high level of stress for poultry; the animals try to compensate the increase in body temperature via a higher rate of respiration (panting) and by spreading their wings. This results in a loss of water and thus also electrolytes, which in turn can lead to respiratory alkalosis. The production performance decreases in proportion with the well-being of the animals. If these vital electrolytes are not supplemented, animal losses can occur.

DOSAGE:

Poultry and rabbits: 0,5-1 ml / 2 liters drinking water for 5 – 7 days

Other species: 1,5 ml / 10 kg of body weight for 5 – 10 days

We offer flexibility in pack size from 1 to 1.000 litres as well as custom made formulations on request. In addition we can offer a full range of water soluble **powder** formulations.

MYVIT – Quality from LSA
Our extensive range of liquid formulations is  assured.
